A degree for
Sign Language Interpreters
that works.

• The Bachelor of Applied Science (BAS) degree is designed for Sign Language professionals with Associate of Applied Science degrees. The BAS degree builds an individually designed program around the major you have already completed through your Associate of Applied Science degree.

• Transfer up to 90 semester hours toward your bachelor degree.

• Regionally accredited through the NCA: Higher Learning Commission.

Note:
Meet the RID June 30, 2012 mandate with the Bachelor of Applied Science degree!
