EMERGENCY RESPONSE GUIDELINES

NATIONAL THREAT ADVISORY

National ‘Red Alert’ for Terror Attacks Plan for Siena Heights University/Adrian Campus

Siena Heights University is aware of the potential for a heightened threat level and the Crisis Response Team is taking practical and logical steps to ensure safety in the event of a red alert. Statistics show that it is unlikely that Siena Heights University would be harmed in a terror incident.

In the event that the United States is upgraded to a ‘red alert’ for terror attacks but SE Michigan is not directly targeted then the recommended course of action is:

- Increase Public Safety presence for large events
- Supervision for the TV lounge in Ledwidge
- Communicate that these areas are open 24 hours for assistance and updates following the model we used for 9-11
- Utilizing the Department of Public Safety and the residence life staffs to enforce the campus ID policy for admittance to the residence halls and sporting events.

In the event that the United States is upgraded to a ‘red alert’ for terror attacks where SE Michigan is specifically mentioned then the recommended course of action in addition to the actions for a ‘red alert’ is:

- Initiate the crisis communication plan
- Initiate the lock down procedure
- Utilize the SHU website as an information center for community members
- Cancel classes for the time duration that the specific threat is for
- Cancel large events and outside conferences
- Open up the residence halls for students to stay during vacation times if their hometown is threatened. Provide appropriate intervention services as needed
- Food service will be able to provide meals for the residents and some additional Siena Heights University community members for up to 10 days, in the event that supplies cannot be delivered

SHU EMERGENCY
