EMERGENCY RESPONSE GUIDELINES

UTILITY EMERGENCY

Reporting

- Report Utility Failures in Adrian campus buildings to the Department of Public Safety
- Be prepared to provide the following information:
  - Your name
  - Phone number where you can be reached
  - Building name
  - Nature of incident
  - Floor(s) or area affected
  - Room number

Electrical Failures

- For the Adrian Campus – Public Safety will assess the situation and determine the appropriate course of action.
- In buildings equipped with emergency generators, the emergency generator will provide limited electricity to crucial areas of the building, inclusive of the fire alarm system and emergency lighting. Fire alarm systems also have 24 hours of battery back-up.
- Some building’s emergency lighting source is provided by battery, and will have a limited amount of time the emergency lighting will remain on. In this instance, you should evacuate the building when emergency lighting comes on: this is especially important if there is limited or no natural lighting available along your exit path. Do not reenter the building until the power has been restored.
- Turn off all electrical equipment, including computers. Do not turn any equipment back on until power has been restored or you are advised to do so by Campus Public Safety.
- In the event of an extended, campus wide, or area wide power outage, instructions and information will be provided through the SHU Alerts and University website systems.
- Elevators will not function during a power failure. Use the stairs to evacuate the building.
- If you are trapped in an elevator, use the elevator’s emergency phone to notify Campus Public Safety. If there is no emergency phone in the elevator, trigger the elevator’s emergency alarm button.

Water Leaks/Flooding

In the event of water leaks, try to contain the leakage in a container to minimize damage or safety hazards. If it is a significant water leak, avoid the areas where water has accumulated, and wait for help. Water makes an excellent conductor of electricity: thus electric shock is a strong possibility.

SHU EMERGENCY

ON THE ADRIAN CAMPUS 9-911 or 7800 (SHU PUBLIC SAFETY)

CELL 911 or 517-264-7800 (SHU PUBLIC SAFETY)

STATE LOCATION, NATURE OF EMERGENCY, YOUR NAME AND ANY OTHER RELEVANT INFORMATION

STAY ON THE LINE UNTIL THE DISPATCH OPERATOR RELEASES YOU
